Middle/Senior Frontend Magento Developer (remote)

Job Description

Magecom company expands the Frontend team and now we are looking for a professional Middle/Senior Frontend Magento Developer to work with international e-commerce projects.

Our unique expertise in working with Magento and collaboration with international customers will help you to develop your skills in a friendly and family atmosphere.

Requirements:

- 3-5+ years of Magento frontend web-development experience
- Strong knowledge of HTML5, CSS3, experience with SASS/LESS
- Working experience with JavaScript (jQuery, ES6, Ajax)
- Basic knowledge of OOP, PHP, MySQL
- Experience with Git and development tools (Gulp, Webpack, etc.)
- Good spoken and written English for communication with customers
- Proactivity and openness to new challenges

Responsibilities:

- Working with some of the biggest Magento companies in the world
- Development of integrated solutions based on Magento
- Improvement work on your technical skills
- Collaboration with other departments for reaching the best results

Nice to have:

- Experience with ReactJS, VueJS or similar frameworks
- Experience with Flux (Redux) architecture

magecom

Who We Are

Magecom is a professional service company which specializes in Magento ecommerce web design and development. We are based in Kharkov, Ukraine and also have office in London, UK.

We do everything in the best possible way. We have eight years of experience in ecommerce and know how to deal with it the best. We put forward demands for writing code and work according to our processes for a high-quality code review delivery.

Also, we spend a lot of time learning the latest technologies to stay at the top. Quality matters, and we prove it by the work we do.

Our Events

Magento platform has a community of nearly 150,000 developers that stretch the globe. Within this ecosystem, Magento developers inform, educate, and support each other.

We were the first company in Kharkiv, one of Ukraine's IT-centers, to have launched quarterly Magento Meetup & Contribution Days back in 2017 to evolve the Magento community.
